Detailed Itinerary

10-Day Boutique Majestic Morocco Small-Group Tour

Mountains, Medinas and the Mediterranean. Sahara, Souqs, Surfing. Camels, Crafts, Couscous. There are too many words to describe Morocco to boil it down to just a simple phrase. Morocco is a rich mix of Berber, Arab and French culture. A land as much defined by its geographic as by its people. Morocco is bordered in the east by the vast and desolate Sahara desert. On the west is the Mediterranean and in the north and center are a series of rugged mountain ranges. Whether an outdoor enthusiast, a foodie, or excited to learn about a place through its history — Morocco has something for every traveler.

Highlights:

- Travel through the **High Atlas Mountains** amongst snow-capped peaks and **Berber tribes** — the roof of North Africa.
- Take a **camel trek** in the massive, rolling **Erg Chebbi dunes in the Sahara desert**, and camp under the stars in this dramatic and wild landscape.
- Bargain for Bedouin-made jewelry, spices and ceramics amongst the blue-washed buildings of **Chefchaouen's medina**.
- Explore Morocco with a small-group tour of like-minded travelers. **Limited to 6 adventurous travelers.**

A series of jagged, impressive peaks that split the country east to west; we travel through this impressive scenery to the high plains around Skoura. On our drive, we visit the stunning, ancient, excellently preserved Almoravid kasbah of **Ait Benhaddou**. We will pass through the '**Road of a Thousand Kasbahs**' – a twisting, turning mountain road that winds its way through the high desert, lined with crumbling ancient forts. Then it's back to camp for breakfast before heading out on our mid-day **camel trek**. Camels have been the primary mode of transport in the desert for a millennium. In the afternoon, explore the surrounding dunes. For dinner, we will again enjoy wonderful Berber cuisine prepared over the open fire. Without much light pollution, the skies in the Sahara are a swarth of stars. See if you can spot the southern constellations. It is also a great opportunity for **nighttime photography enthusiasts**. For those who are interested, try your hand at star photography and long night exposures (we recommend bringing a tripod or small gorilla pod if you're interested in night photography).

Is This Trip Right for You?:

Can you enjoy traveling in a developing nation? Morocco is a developing nation that has been steadily moving through a fast period of growth and change. It's an exciting and fascinating time to experience Morocco. As a developing nation many services, systems and levels of environmental cleanliness are not the same as they are in Europe and the States. While exploring the country you will see pollution, poverty, overcrowded cities, and sadly malnourished people and animals. You will also see a Morocco working hard toward finding its way to a progressive democracy and finding solution for its economic, social and political challenges. You will experience the stunning ancient Berber culture and traditions, learn about Morocco's fascinating Islamic, Moorish and French history, meet friendly locals, enjoy the warmth and hospitality of Moroccans, and enjoy the stunning natural beauty of the Sahara Desert, High Atlas Mountains and Moroccan coastline.

This trip requires moderate activity level – sustained walking for 2-3 hours over rough terrain, cobblestone, hills, sand dunes and in the heat unassisted. Some days you may be on your feet for the majority of the day with only short breaks. A few days there will be up to 8 hours of driving. This trip is not appropriate for travelers using walkers, wheelchairs, other mobility aids, or who cannot stand on their feet for 2-3 hours while visiting sites and walking around museums. This tour is also not suitable for travelers with back problems. Our tours often involve a number of hours outside in hot temperatures (70 – 85F, some trips as high as 90s Fahrenheit).

In the Sahara, we ride camels 1.5 hours to our Bedouin camps. There we sleep on mattresses (with clean bedding) on the ground (the ground is carpeted). These beds are not suitable for traveler's with bad backs or severe back problems. **NOTE: We stay overnight at a wild camp under the stars in Berber tents in the Sahara. For this 1 night there is no running water or toilet facilities. The Bedouins call this wild camping and the experience of spending the night deep in the Sahara far from civilization is an extraordinary experience!**

If you do not think you'll be able to meet this level of activity requirement, or you have any questions or concerns please email our helpful staff at tours@archaeoadventures.com.
